# Many ways to present your archival material on the world wide web

---

Success depends on your perspective, on your means and on your institutions' policy.

It is all about questions and choices:

- 🎬 Which information do you choose to provide?
- 🎬 How do you present this on the web?
- 🎬 How to meet users' expectations?

# Research

---

Users have to overcome many problems when they try to find information in digital archives .

Speakers will tell us about the choices their organization made.

LAB: in a simulation game we will try to implement the choises, tips and trics of the speakers.

# Other issues

---

- Direct access to archival source or selection of highlights?
- Match the PR policy of your organization?
- How to meet requirements for confidentiality and respect interests of relations?
- How to cope with technical and financial limits?
- Partners?

*Let's listen to the solutions of our speakers!*
