

Finance & Art

eabh bulletin

The next edition of the *eabh* bulletin will explore the fascinating intersections of finance and art. From the Medici's patronage in Renaissance Florence to today's financial institutions viewing art as an investment, these two worlds have always been strongly interconnected.

What artwork do you cherish most within your institution? Whether it's a painting, a sculpture, exquisite crafts, or cutting-edge digital art, we look forward to receiving your contribution.

Each article will feature one artwork, accompanied by a one-page description.
