

## Finance & Football

### Call for Contributions

The European Association for Banking and Financial History (*eabh*) invites contributions for the next issue of the *eabh* bulletin, *Finance & Football*.

As the world prepares for the FIFA World Cup, this issue explores the historical intersections between finance and football.

From sponsorships and branding to employee teams and community engagement, financial institutions have long been connected to football. These connections are often preserved in archives and collections—through objects, images, and artefacts that reveal unexpected relationships between banking and the sport.

This volume aims to uncover and showcase these links through short, object-centred contributions.

We invite one-page articles centred on a visually compelling object. Each contribution should include:

- A one-page article presenting and contextualising the object, and explaining how it reflects a connection between finance and football
- One image (photograph, document, artefact, or visual material)

### Submission Guidelines
